Description:

Akiko, means 'bright light' and she is aptly named, as her fleece is very bright, pure white and soft as down. She has a solid frame, with a cute face, and a very 'typey' look.

Akiko carries an impressive pedigree; with such powerful bloodlines as DLA Peruvian Thunderbolt/P3 White Lightning and Jolimont Peruvian Alpamayo behind her, Akiko shows great promise. Akiko's sire is Agassiz's Prairie Thunder, a Peruvian Thunderbolt son. Her dam is MMR Alani, an Alpamayo daughter who has produced only female crias for us.

Akiko's full sister, HTO Hilltop Oasis Snow Angel, is a real beauty as well. She placed in the ribbons two years in a row at the Keystone Alpaca Classic, one of Canada's largest alpaca shows.

Akiko has been bred to Americano's HemiAccoyo Llywelyn, a truly elite herdsire. We anxiously await their cria next summer.
