23.70µ SD 4.30µ CV 18.10% % Over 30 Microns(µ) 5.60%

(taken on 3rd June 2008 at 1 Year and 3 Months of age)

Fibre Testing Authority: Yocom-McColl Testing Laboratories

Description:

Tessa has developed into a stunning young female. She is now bred, at her request, to our gorgeous full Bolivian dark fawn boy, Major-B. He is one of only a few studs directly from Acero Marka bloodlines. His fibre stats on March 11, 2003 were AFD 19.5 SD 4.5 CV 22.8 with 1.9 microns over 30. On April 14, 2004 his fibre stats were AFD 22.1 SD 5.5 CV 24.8 with 5.2 microns over 30. Add this to her multi ribbon winner, Almanzo's, attributes and this cria should be a knockout. If you are looking to add a quality fibre female to your herd do not pass Tessa up.
