

HTO Hilltop Oasis Ballerina

Price: €5,000.00

Sire: Agassiz's Prairie Thunder

Dam: MMR Alani

Type: Pregnant Female (Pregnant)

Breed Type: Huacaya

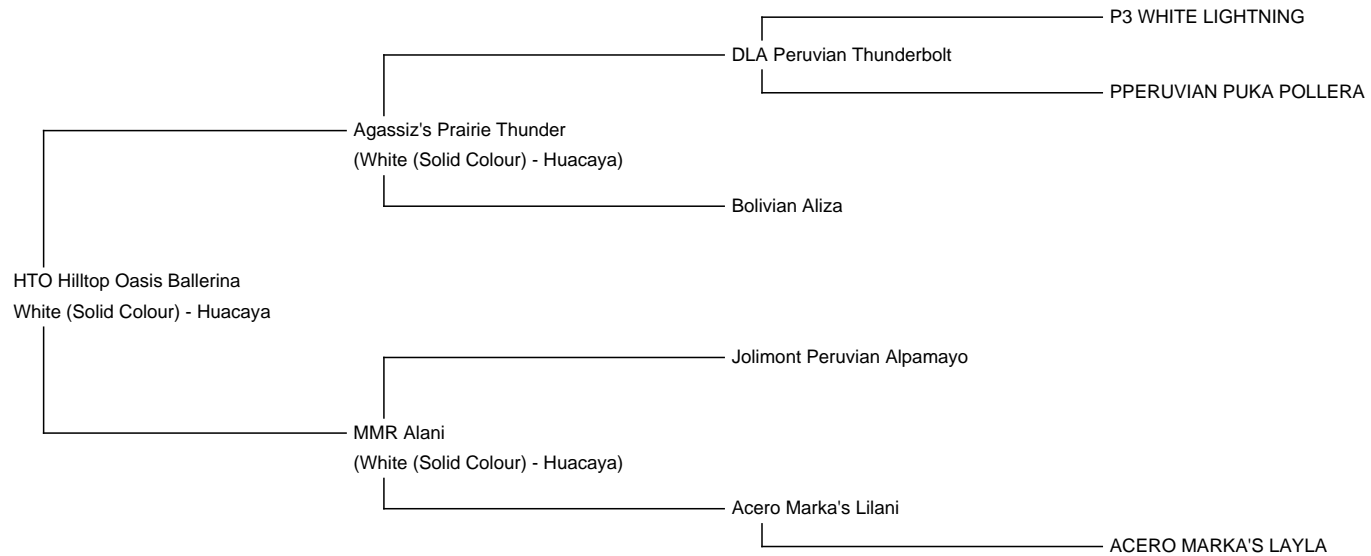

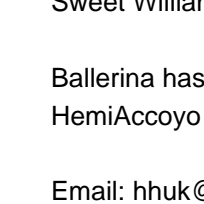

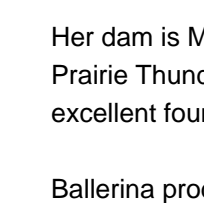

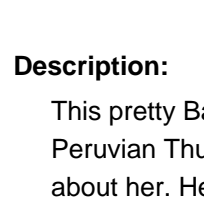

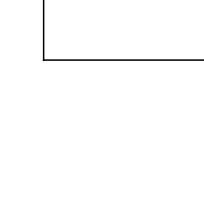

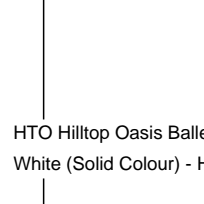

Colour: White (Solid Colour)

Registered With: CLAA: # pending

ARI: # 30907294

Blood Lineage: 5/8 Peruvian, Bolivian/Chilean

Date of Birth: 9th September 2008

Description:

This pretty Ballerina has some powerful genetics behind her; Jolimont Peruvian Alpamayo on her dam's side, and DLA Peruvian Thunderbolt / P3 White Lightning on her sire's side. She has a gentle temperament and a very elegant look about her. Her fleece is bright and soft with a deep bold crimp style.

Her dam is MMR Alani, an Alpamayo daughter, who has produced superb females for us. Ballerina's sire is Agassiz's Prairie Thunder, a DLA Peruvian Thunderbolt son. With such proven genetics behind her, she is developing into an excellent foundation female.

Ballerina produced a gorgeous male cria this summer, sired by HA Desert Dwali, our full Peruvian, Jolimont Peruvian Sweet William son. We have named him Legolas.

Ballerina has been bred for the 2012 season to Americano's HemiAccoyo Llywelyn, a truly spectacular, Victor's HemiAccoyo Americano son.
