### Description:

Thunder Strike's pedigree contains such well known champion bloodlines as Pperuvian Vengador, Pperuvian Victor, and P3 White Lightning.

This young male certainly has great potential, looking at his pedigree and the performance of his ancestors. His conformation is excellent, his bone structure is solid, and his fleece is extremely dense yet very fine. He has tight, high frequency crimp consistently throughout his fleece.

His dam, Kassia, is the granddaughter of Sweet Dreams Zaccoyo and great grand daughter of Pperuvian Vengador. His sire, Agassiz Prairie Thunder is the son of DLA Peruvian Thunderbolt.

Thunder Strike has matured into an impressive male, who is ready to start his breeding career this spring. The price reflects his unproven status rather than his quality. Thunder Strike will enhance the quality of your breeding program. We are focusing on our black and grey breeding plan and would not be using Thunder Strike in our breeding program so why not put him to work in yours.
