

## **Description:**

Jinx is a gorgeous white female with an excellent pedigree behind her. On the dam's side, we have Jolimont Peruvian Alpamayo and DLA Peruvian Thunderbolt lines. On her sire's side - Jolimont Peruvian Sweet William. These renowned champion herdsires have contributed greatly to the Canadian industry and Jinx has certainly inherited their best.

Jinx has developed into a fine young female, with great fleece density and tight crimp. Although we did not show her, Jinx shows great potential.

Jinx has been bred to Americano's HemiAccoyo Llywelyn, a full Peruvian herdsire, for a 2012 cria. We are offering only a few select females bred to Llywelyn for sale this year. Check out Llywelyn's herdsire page. This is an excellent opportunity to add some elite genetics to your herd.
