**Colour:** Black (Solid Colour)

**Registered With:** CLAA # pending

ARI # 32750645

**Blood Lineage:** Mixed

**Date of Birth:** 7th August 2011

### Description:

This young female came into the world full of spunk, and hasn't stopped since. She certainly takes after her mom, who was also a very energetic cria. Firecracker is aptly named.

Firecracker's dam is Firefly, a true black female, who has proven to be a wonderful first time mom. She is the grand daughter of High Plains Amadeus with Jolimont Peruvian Pauco in her pedigree as well.

Firecracker's sire is Xtreme, a proven true black herdsire and Reserve Champion with RFA Turk and Jolimont Peruvian Ivano in his background.

Firecracker is developing into a fine young female, with a solid body and crimped fibre, and will be in our show string this spring.
