Description:

Maximillian has matured into a fine, well conformed herdsire. Max is following in the footsteps of his champion sire, Almanzo, a multiple award winner. His paternal grandsire is the renowned Pperuvian Guellermo, a proven herdsire who has produced many ribbon winners in both the US and Canada. Max's dam, Anastasia, is a full Bolivian foundation female in our herd.

Max has excellent conformation, full fleece coverage and a commanding presence. His fleece is fine with soft pencil locks and a staple length of 6.5 inches at shearing. His coverage is awesome; from his full face coverage right down to his toes.

We are focusing more on our black and grey breeding program and Max is not being used to his full potential on our farm. Maximillian will add colour, quality and proven genetics to your herd.
