**Dam:** AHH Houghton Lille-Anne

**Type:** Female

**Breed Type:** Huacaya

**Colour:** White (Solid Colour)

**Registered With:** BAS No. UKBAS27801

**Date of Birth:** 13th July 2015

## Description:

Lil Miss Mysterious has a stunning dense fleece and is very uniformed as well as low micron with pretty amazing genetics in her. She is still a young female so she has many years ahead for breeding . She will be rebred to one of our leading sires next as part of the sale. Ideally suited to an existing breeder looking to introduce some top genetics into their herd or a new buyer wishing to start with a premium female and cria. Her 2018 female cria is being sold separately and has a very bundly and bright and would make an ideal show animal for next year.

**Number of Crias bred from female: 1**
