26.00µ SD 5.50µ

(taken on 11th March 2023 at 9 Years of age)

Fibre Testing Authority: Art of Fibre

Description:

Spring Flower is a fascinating girl for the coloured breeder. Genetically, she is a mid brown, but has an excessive display of the white spot gene, causing her to look predominantly white.

Spring Flower has a fine, silky soft fleece with excellent density

She is a proven female, having given us two gorgeous female cria over the past two years - both with excellent density and handle -and a fantastic brown male this year. She has been mated to our multiple-champion Winsaula Cracker, so should produce something exciting!

All our alpacas are halter-trained for ease of handling.

All our sales come with:

a full health history of the animal
after sales support
pregnancy certificate
pre-movement worming
live cria guarantee (7 day)
discounted stud services to returning females
microchip and ear tag
BAS registration
No VAT
We can provide a Tb test at purchaser's cost.

If you require a course in how to care for your alpacas, we would be only too pleased to spend a day showing you the ropes.

Name of covering male: Winsaula Cracker (Beige)

Last Mating Date: 28th May 2023

Estimated Date Cria Due (Pregnant Female): 28th April 2024
