19.50µ SD 4.30µ CV 22.20%

*(taken on 19th February 2021 at 7 Months of age)*

**Fibre Testing Authority:** Art of Fibre

### Description:

Rocco offers an opportunity to lock in the best of Australian and Peruvian genetics at an early stage. He's big for his age, always curious and already dominant within his peer group. Rocco produced an abundance of fibre in his first year with 90mm in stable length at 6 months after cria shearing (120mm at 9 months). If the attention he is giving to our female yearlings is anything to go by he'll be ready to work in the summer of 2022! A rare opportunity to acquire grey genetics already acknowledged with a first place rosette at the only hater show in 2021.

### Prizes Won:
