Description:

After careful thought, we are offering this lovely young rich brown male for sale. He is at an age to begin to be introduced to the females for the first time. Xaviar has a very impressive pedigree. He is a calm alpaca who is easy to handle and who fits in well with his herd mates. He is in a paddock with 6 more mature boys including 2 proven studs. The only reason, we are selling him is that we bought in his half-brother, a multi-Champion black male who was also sired by Multi-Champion Nero Black Shadow. We now have several other quality male studs that provide a wide gene pool for our females. Rather than having this male waiting in line to be used on the girls, we decided that he would be of more value to a breeder who could make the most of his genetics.

Like his dam, he has the richest mahogany colouring which visitors comment on. Xaviar has good conformation and a lovely soft, dense fleece and would be an asset to any breeder wanting to produce colour. He is microchipped and up to date with vaccinations and husbandry. He can be offered as part of a package if desired. Transportation for this male is free of charge within a 100 miles radius and further distance for a reasonable cost of fuel.
