Registered With: BAS UKBAS32925

Blood Lineage: Inca/Snowmass

Date of Birth: 22nd July 2017

Description:

Ellie Jake Farm Crystal is a 4 years old female in her prime. She is a perfect age to be introduced as a reliable breeding female. She is one of our core, reliable breeding females who has previously had one cria, a beige female, Whistlewood Malibu. White socks (as we'll call him for now) is her second cria, Champion sired by our lovely grey, Rivenherd Amos. Crystal is a really lovely mild mannered, friendly girl who would be an asset to any farm. She gets pregnant easily, births easily and is the most fantastic mother. After giving birth to her first cria, she did not allow Malibu to leave her side and stood there like a little soldier to allow her to feed. She has plenty of milk, looks after her cria and is a very attentive Mom. Crystal has great genetics, her sire being Inca Hamilton. Crystal would be an asset to any herd and who would bring great genetics and colour to the table. She has a lovely fine dense fleece and is BAS registered, microchipped and eartagged, easy to handle and up to date with vaccinations and husbandry tasks. White Socks has the potential to become a stud in the future carrying the impressive genetics of both Inca and Houghton. Crystal's cria is a real little stunner with unusual markings. He is a friendly little guy who carries bundles of the cuteness factor! White socks will also be BAS notified in order that he can be a breeding male when he is mature enough. We had a cria last year with the same Champion grey sire, Rivenherd Amos, who was of a very similar colouring who sheared out a lovely dark grey. No promises but, in any case, he IS carrying some interesting pattern genetics. Crystal is to be sold as a pregnant female with White Socks at foot (he is to be Named Whistlewood? I can register him with a cool name of your choice if you decide that you would like to have her.) Crystal can be mated to any one of our

herd sires in the next few days including our grey Futurity Champion Boztdown Comanche, grey Champion, Rivenherd Amos, black multi-Champion Stagshaw Samson or our fawn and white appaloosa Moorside Archie. THIS IS A GREAT OPPORTUNITY TO FLOOD YOUR BREEDING PROGRAM WITH GREY GENETICS.

Name of covering male: Boztdown Comanche- NO VAT (Medium Grey)

Number of Crias bred from female: 2

Sire of Cria at Foot: RIVENHERD AMOS- NO VAT (Medium Grey)

Cria at Foot: White socks (as we'll call him for now) is her second cria, Champion sired by our lovely grey, Rivenherd Amos. Crystal's cria is a real little stunner with unusual markings. He is a friendly little guy who carries bundles of the cuteness factor! White socks will also be BAS notified in order that he can be a breeding male when he is mature enough. We had a cria last year with the same Champion grey sire, Rivenherd Amos, who was of a very similar colouring who sheared out a lovely dark grey. No promises but, in any case, he IS carrying some interesting pattern genetics.
