18.10µ SD 4.60µ CV 25.60% Staple Length 105 mm Yield 1.40 Kg/Year

(taken on 28th May 2021 at 1 Year and 11 Months of age)

Fibre Testing Authority: Art of Fibre

Description:

Izzie is a gentle, elegant young white pregnant female. She has a particularly fine fleece with long staple. She has been mated with Watership Romeo, our prize-winning stud male. She has Jacquinto of Alpaca Stud and Bozedown Comet II in her heritage so would make a fine addition to your herd.

We have been enjoying life with our alpacas for over 15 years now. From the beginning, we have seen them as part of our farm family and their health and welfare has been our first aim.

We have carefully selected outside studs to improve our herd, so our herd has the benefit of some of the best genetics.

Over the last years we have bought in studs to join our herd, with all of them having champion fathers.

We halter train all our alpacas from 6 months which, not only being enjoyable for us, makes all handling easier, prepares them for showing or for eventual walking ventures with a new owner. Protection from harsh weather, biosecurity and

calm, easy alpaca handling was built into the farm design. Manure is removed from paddocks and composted; alpacas have all vaccinations and frequent observation and condition, mouth and nail checks.

If you are wondering if alpacas are right for you, please feel welcome to visit and we can share with you our over 15 years of experience. We provide free delivery for up to 100 miles. Vet certificates can be provided if required.

Name of covering male: Watership Romeite (Medium Fawn)

Last Mating Date: 10th July 2021

Estimated Date Cria Due (Pregnant Female): 10th June 2022

Number of Crias bred from female: 0
