Blood Lineage: Australian/Canadian

Date of Birth: 18th April 2021

Description:

Lane House Peony is a stunning young female. Her fleece is very dense, fine, uniform and bright with a lovely high frequency crimp from head to toe. She stands on a well built string frame with excellent substance of bone and fleece coverage. She is very well grown for her age so we expect she will be ready to breed next summer. She also has her dams excellent calm nature which makes her a pleasure to handle.

She is most definitely show quality and would be part of our team for 2022. Her dam is one of our best producers who has bred many champions & supreme. She and her dam both carry the coloured 'spotting gene' so she would have an advantage of likely producing appaloosa if put to the right male. (Mating to one of our Appaloosa males can be arranged)
