He has a high frequency deep amplitude fleece style which is very pleasing to see. He has a true to type head with very dark points and has impressive fleece coverage.

This male would be an asset to anyone wanting to breed darker colours, given his genetics and phenotype he is likely to produce black and greys when put to the right females. His sire is our impressive Australian imported male - Kurrawa Legends Bandido who is consistently producing top quality offspring. His dam is

Houghton Red Rose, a beautiful dark silver grey female sired by the legendary Houghton Noah II - who is arguably one of the best grey males in the U.K.
