(taken on 1st May 2022 at 11 Months of age)

Fibre Testing Authority: Art of Fibre

Description:

Havana is a yearling black female ready to start her breeding career this season. Havana is sired by Inca Legacy, a very influential black stud with multiple championship winning progeny. She stands on a very correct balanced frame coupled with her pleasing head type. Her dam is Rivenherd Alesha who has the excellent genetics of Miguel who has also produced multi champion offspring.

Her fleece is fine, reasonably dense with very good

length to it something her sire Inca Legacy gives to his progeny. Havanna has a beautiful mix of black genetics in her background which makes her very exciting prospect for future breeding programs.

Rivenherd Havana at 20 months
