*(taken on 20th June 2022 at 11 Months of age)*

**Fibre Testing Authority:** Art of Fibre

### Description:

Acquiring Cold Comfort Junior presents an opportunity to snap up the best of Bozedown and Evolution genetics in one package. His dam was sired by the mighty Bozedown Ascendant, which combined well with her Australian heritage on offer from her dam. Junior's sire, Cold Comfort Atticus (himself a HoE Supreme Champion), has passed on his uniformity and eye-catching staple structure, from skin to tip. This is confirmed in his fleece stats, at 15.9 micron and an SD of 3. His fleece is bright and well organised, typical of animals performing well in today's show ring. As Junior matures he displays the swagger required for a working boy. A great chance to acquire a young boy with the genetics to make a difference to your herd!

### Prizes Won:
