Fleece: (8th)

25.80 μ SD 4.40 μ

(taken on 11th March 2023 at 7 Years and 9 Months of age)

Fibre Testing Authority: Art of Fibre

Description:

Primrose is absolutely one of our favourite alpacas, for so many reasons. One is that she is simply stunning to look at. Her pattern is so unusual and captivating. That, coupled with her excellent fibre stats, won us over. Since then, it's been like she's always been here. She is the lead alpaca in the female field and has been known to lead all the girls straight into the catching pen before we're even ready. She leads the way out of the barn every morning and back in every evening. She doesn't kick or spit (except for spit-offs) and she does very well on our system.

She has had three cria on the farm and one year off to bring her season round earlier. We are retaining a daughter and a son, who has his first spit-offs now. His first fleece was 15.7mic and her daughter's first fleece was 16.7mic.

She is available with her male cria at foot, who is an appaloosa by our appaloosa stud Pentney Biscuit. She is pregnant again to Pentney Biscuit for April 25th 2024. So far, Biscuit has given us 100% appaloosas, so we'd hope for another!

Visits welcome.

All our alpacas are halter-trained for ease of handling.

All our sales come with:

a full health history of the animal
after sales support

pregnancy certificate
pre-movement worming
live cria guarantee (7 day)
discounted stud services to returning females
microchip and ear tag
BAS registration
No VAT
We can provide a Tb test at purchaser's cost.

If you require a course in how to care for your alpacas, we would be only too pleased to spend a day showing you the ropes.
