(White (Solid Colour) - Suri)

Popham Suri Floppys ****no vat****
White - Suri

UKBAS24006 - Popham Suri Sunset
(Dark Fawn (Solid Colour) - Suri)

Description:

Flopsy is a very attractive alpaca, easy to handle and very friendly, excellent temperament's and halter trained and gels well in the Hurd. Eye pleasing, with correct conformation, Flopseys fleece states available on request. she is very light fawn on registration but some would say she was white. floppy presents excellent opportunity for either augment with your existing Hurd, or a wonderful exciting new breeding journey with Suri alpacas starting point. Flopsy has had the most amazing off spring that are all worthy of award winning! I have two of her stunning daughters and an award winning son who was 6th at national Alpaca show in 2024.

Flopsy has proven to be a good strong loving mother to her ciria.so far all off spring are well confirmed. . Flopsy has good with husbandry records. full health notes given. After sales support.

Pre movement worming (following COPRO).

UpToDate with vaccinations vitamins etc.

So far all of her ciria have done well at competition.

Flopsy is currently mated to the Pinkney dragon. They produce excellent ciria, Both mother and father to this future ciria display excellent fleece and correct head type and correct conformation, which would be a assets to your herd, with this new ciria in the making.. Last pregnancy was 363 gestation born perfect! 8.1kg at birth.

Son of award winning Pinkney dragon who has a excellent sd for his age. When the Dragon enters the field he commands your attention with his eye pleasing style. Slow going Sd in fleece.. Makes your fleece usable for longer and tends to pass his fleece onto his ciria. Most of the Pinkney dragons, ciria that i have have all had this trate from him. :) sadly i can not keep them all.

Asset to any breeding program. Very good mum.

We aspire to the highest standard and continue to train in our husbandry/ alpaca weal fair. To keep our techniques up-to date.

We have a closed Hurd, with strict biosecurity. We only sell bas registered alpacas.

Her last ciria just come 6th at 2024 national show. The moment we looked at him he oozed with stylish confirmation and fleece quality's.

Flopsey is mated to the pinkney dragon yet again, but if excellent ciria are produced why change the formula, gives you a great opportunity to improve your Hurd with a possibility of award winning Ciria in the national show!!! if you choose to go to show! will be a total assist to any Hurd, high chance of winning at the national top level of competition! An opportunity not to be missed. Flopsey last birth went very smooth, I turned up to her and ciria running around the field. She feeds with no issues so far for me. So if you're getting into breeding this gal can be yours! With plenty of breading years left in her by keeping up her excellent husbandry and weal fair!
