3.80 μ Staple Length 105 mm

(taken on 21st August 2018 at 2 Years and 2 Months of age)

Fibre Testing Authority: Art of Fibre

Description:

Eloise is a lovely pregnant fawn female with her may born male cria at foot.

Dense fleece with very good coverage and good conformation.

Has bred very well for us but we now have her daughters coming into the herd and our herd size needs to be reduced.

She will come up and eat from the trough and generally get in the way at feeding time.

She is however a bit stressed at shearing and when she has injections etc.

Hence the bargain price as we believe in disclosing everything to buyers.

Her daughters have lovely temperaments.

Name of covering male: CME Dion (White)

Last Mating Date: 17th June 2023

Estimated Date Cria Due (Pregnant Female): 17th May 2024

Number of Crias bred from female: 4

Sire of Cria at Foot: Sapphire Bernie (White)

Cria at Foot: Lovely light fawn boy

Date of Birth of Cria at Foot: 16th May 2023

Current Age of Cria at Foot: 79 Weeks and 2 Days
