*(taken on 26th June 2024 at 1 Year of age)*

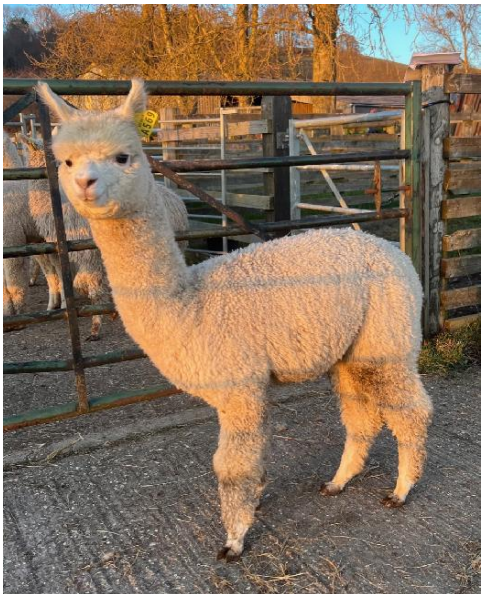

**Fibre Testing Authority:** European Wool Testing Authority

### Description:

Bozedown Alexis is a very cute weanling female! Her fleece is fine and soft with excellent brightness, although small in stature at the moment she has excellent conformation and I am sure she will grow out into a well developed female.

This is an opportunity to invest in some powerful genetics, such as the legendary Bozedown Galaxy, Jolimont Rodrigo (AUS), and Supernova (USA)
