*(taken on 26th June 2024 at 1 Year of age)*

**Fibre Testing Authority:** European Wool Testing Authority

### Description:

Bozedown Emanuelle is a very well grown weanling female with a lovely temperament. She has excellent conformation and a lovely soft handling fleece with excellent length. Breeding forward I would like to see an increase of density but she will carry her dam's residual fineness. Her dam Tamsin is 16 years old and still breeding, her fleece now has a shorter staple but not unexpected given her age but what I am thrilled about is how she is still under 22 microns and beautifully soft.

Emanuelle is ready to mated in the 2025 breeding season.

Boztdown Emanuelle
