*(taken on 26th June 2024 at 1 Year of age)*

**Fibre Testing Authority:** European Wool Testing Authority

### Description:

Bozdown Skydance is a striking modern grey female and with most modern greys, they develop and display more of grey appearance in their second fleece. Which is what Skydance's full brother did!

Her fleece is cool to the touch and silky soft which is what we want in our suris. Her fleece shines with lustre and is adequately dense. Her lineage carries longevity of fineness and I would expect the same for Skydance. If you are looking for an unusual colour for a suri the Skydance is your girl!
