**Date of Birth:** 22nd August 2016

### Description:

Libby is registered as a breeding female, but is now being sold as non-breeding, and would make an ideal companion in an all female herd. Libby has previously birthed three crias, but we have decided to retire her from breeding due to birth complications and having to supplement her milk.

Libby will happily hand feed but she is not halter trained. Libby is registered with the British Alpaca Society, is microchipped and is up to date with all of her routine husbandry. She had her teeth rasped in June 2024.

**Number of Crias bred from female: 3**
