*(taken on 1st May 2023 at 11 Months of age)*

**Fibre Testing Authority:** The Fibre Lab

### Description:

Senga is a beautiful and rather confident young alpaca. She has excellent fleece stats with a great deal of promise – her SD of 3.8um is particularly pleasing.

On her sire's side, Senga's genetics are impressive. She is a grand-daughter of Fowberry Nobility and a great granddaughter of Top Account of Fowberry. On her dam's side too, she has some very notable names and some great colour heritage.

To make the most of Senga's potential to produce beautiful cria and build on her own excellent fleece characteristics, we would recommend that she be bred to a great quality light-coloured male.
