Fibre Testing Authority: The Fibre Lab

Description:

elina is a confident young female well grown for her age. She has great depth of even colour and a very correct conformation.

On her sire's side, Selina's genetics are impeccable. She is a grand-daughter of Fowberry Nobility and a great granddaughter of Top Account of Fowberry. Her dam's family typically possess tremendous depth of colour on sound, well-grown frames.

Selina's mating to Lythe Brow Calix is exciting. His cria have typically shown excellent fineness, density and character in their fleece, and Selina's family have great colour.

Please contact us for more details and for our Terms and Conditions of Sale. All prices are subject to VAT.
