(taken on 1st May 2022 at of age)

**Fibre Testing Authority:** The Fibre Lab

### Description:

Skye is a very confident and outgoing alpaca and well grown for her age. She has somewhat variable fleece colour across her body in a style not uncommon with fawn alpacas but with good depth of colour across most of her blanket.

Skye's own sire is Carlshead Demarco, a son of Fowberry Nobility, and her great grand-sires on that side are Top Account of Fowberry and Warramunga Downs Miguel. On her dam's side she can include the legendary Shafts' Dream of Arunvale and so she has great black and dark heritage.

It would be our recommendation that Skye be bred to a very solid dark-coloured male to maximise her potential for depth of colour and to minimise her own colour variability.
