(taken on 17th April 2019 at 10 Months of age)

Fibre Testing Authority: The Fibre Lab

Description:

Ness is a well-conformed and confident alpaca and has been a great mother to her first four cria, the first three of whom – Rabbie, Strachan and Tweed – have exceptionally pleasing fleeces. Her fourth cria, Auld Mill Aonghas, has not yet been fleece tested but shows great promise too. Ness has a tremendous cut weight of fleece and great density in her fleece.

She is pregnant to solid black Carlshead Domingo and we are very keen indeed to see the cria that they produce !
