(taken on 21st May 2023 at 1 Year and 9 Months of age)

Fibre Testing Authority: Art of Fibre

Description:

ISCA Edgar Hoover is a stunning young male.

He has exceptional staple length, along with a superfine, dense fleece. He has a high frequency medium amplitude crimp style which is very uniform across the body. He has very low primary to secondary fibre ratio which give his fleece the most beautiful handle. He stands on a perfect frame, good bone and chest capacity with a true to type head with excellent fleece coverage. He has so far done very well in the show ring and will continue to be part of our show animals until he is sold. Unfortunately we are a predominately black breeder and therefor he is not compatible with our programme. He is a well grown strong proven stud male and he is very willing to work.

Sired by Accoyo-Europe Isambard . From one of our best looking and pleasant dams, Great House Viola. He has he has some excellent quality genetics behind him.

EID : BNBAS435

EarTag : ISCBASUKE13

Micron : 18.0 mic
