*(taken on 15th April 2023 at 11 Years and 11 Months of age)*

### Description:

TOFT Mira is a mature solid white female out of our Mid fawn Stud male BARRABINDA Flinders Star of TOFT AU and HOMESTEAD FARM Maggie May of TOFT.

TOFT Mira is now 12 years old and as you can see her price reflects this. She is a strong solid female who has produced some very good alpacas for us here at Toft over the years including one of our light fawn stud males Toft Tamburlaine.

TOFT Mira's fleece at twelve years old, is as you would expect now at its best used to stuff in duvets or make accessories.

Genetics:- What you purchase with Toft Mira, at a bargain price, is her goodself, the cria inside her which will be born in 2024 and probably a few more seasons of very good cria with the genetic potential of a girl with an awful lot of Australian lineage.

TOFT Mira would make a very classy and interesting addition to someone looking to create a starter herd of good value

alpacas with real potential.

Toft Mira is being mated pregnant for 2024 to to our Champion Dark Fawn Stud Male Herts The Big Bopper and her cria will be due around the beginning of August 2024 so if you are interested and want to grab a pedigree alpaca at a bargain price then give TOFT Mira some real consideration.

TOFT Mira pregnant to The Big Bopper for 2024

EDD:- 07/08/24

**Name of covering male:** HERTS THE BIG BOPPER
