

Description:

Chewpacca is a well grown young male with a calm temperament and fine fleece with a lovely crimp! His Great Grand Sire on his paternal side is the renowned Alpaca Stud Nyetimber who has won over 27 grey championships, so this boy could be one to watch!

Morden Darcy

Chewie is up to date with his husbandry and has started a little bit of halter training.

Chewie would make a wonderful pet or walker, if trained appropriately, and with his genetics could make a potential stud male.

He is sold as a package of three, along with his friends, Solo and Kylo.

The boys are available immediately or after being sheared on 1st May. Full after sales support provided and delivery is possible at additional cost and dependent on location.
