### Fleece:

17.60µ SD 3.30µ

*(taken on 11th December 2022 at 6 Months of age)*

### Description:

Marta is a joyous young female with all the physical credentials you'd expect from her Bozedown and Meon Valley genetics. Her fleece offers an incredibly soft handle which bears testimony to superiour uniformity. Her baby fleece measured at 12.8 micron, with an SD of 3! She was above average in size as a yearling and is now pregnant to Artwork VV Amercian Idol, a Snowmass Velvet Voyager son. What a combination!
