(taken on 12th May 2024 at 4 Years and 11 Months of age)

Fibre Testing Authority: European Wool Testing Authority

Description:

Penny has proven to be a fantastic mother as well as nursemaid to other cria. She had a dark brown male cria this summer and a multi female last year who is also available.

Penny fell pregnant on the first try both last year and the year before and had only not been mated as a 2-year-old due to time constraints that summer. She had her both cria without any assistance and had so much milk from the get-go that we were able to milk considerable amounts last year to freeze in case we'd need it this year. Penny has also taken to feeding any other cria that would attempt it while still producing enough for her own to thrive.

Penny's fleece quality has suffered a bit while nursing several cria at once but was lovely once upon a time!

She is very confident, walks on a head collar and will take treats out of anyone's hand without hesitation.

Aside from excellent coloured genetics on her maternal side, she also boasts grey in her bloodlines via her tuxedo grey sire Alpha Huckleberry (respectively his sire Jessamine Redlands and renowned grandsire Alpaca Stud Nyetimber). Mated to solid bay black Dewgates D'Artagnan as a 3-year-old, she produced a dark brown female with white markings similar to her own and has had a solid dark brown male this year with solid mid-brown Moat Farm Ezra.

Penny can be sold into an existing herd of females or we can help you make up a new herd of your own. Full ongoing support is provided and delivery can be arranged.

Number of Crias bred from female: 1

Sire of Cria at Foot: Moat Farm Ezra (Medium Brown)

Cria at Foot: Dark brown male, picture will follow - he doesn't stand still long enough!

Date of Birth of Cria at Foot: 4th July 2024
