

Martha My Dear- NO VAT, ONO -with '23 cria at foot

Price: £3,000.00 with female cria at foot

Sire: Alpha Huckleberry

Dam: Butlers Farm Peggles

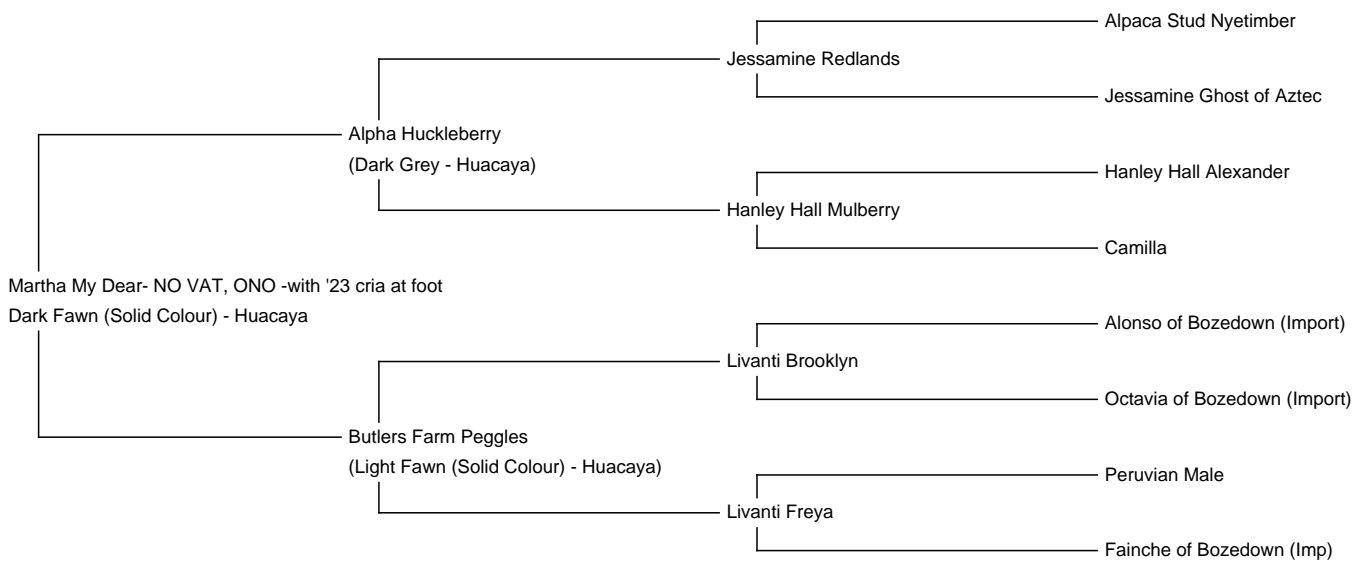

Type: Female

Breed Type: Huacaya

Colour: Dark Fawn (Solid Colour)

Registered With: UKBAS37416

Date of Birth: 12th July 2019

Description:

Martha has proven to be a solid mother in her maiden year. She fell pregnant instantly in 2022 (first mating at 3 years old due to time constraints the previous summer) and gave birth unassisted. While her milk was slow to come in initially, she has made up for this over time and is being sold along with her female cria Lady Edith (UKBAS44347, DOB 13/07/23).

As Martha wasn't remated for 2024 and her cria is so far not touching hard feed, we made the decision not to wean just yet - hence this lovely package until we wean.

Martha can be remated to Edith's sire for 2025 for a small fee.

Martha is very confident, walks on a head collar and will take treats out of anyone's hand without hesitation. Lady Edith, while not keen on treats, also walks well on a halter. Please let us know if you are interested in only one of these females; we are happy to split them up as Edith's time for weaning is coming soon anyway!

Aside from excellent colour genetics on her maternal side, Martha (and, by extension, Edith) also boasts grey in her bloodlines via her tuxedo grey sire Alpha Huckleberry (respectively his sire Jessamine Redlands and renowned grandsire Alpaca Stud Nyetimber). Mated to solid bay black Dewgates D'Artagnan, she produced a mid-brown female

with stunning fleece, as dense and long in staple as her own but with much more crimp and fineness.

While Martha has never had the finest fleece herself, she makes up for it in quantity with a dense blanket that usually weighs around 2kg. Her staple length consistently comes in at around 9-10cm.

Martha and Lady Edith can be sold into an existing herd of females or we can help you make up a new herd of your own. Full ongoing support is provided and delivery can be arranged.

Number of Crias bred from female: 1

Sire of Cria at Foot: Dewgates D'Artagnan (Black)

Cria at Foot: Solid Mid Brown Female with impressive staple length and consistent crimp throughout her fleece. Fleece sample can be taken if required. Not weaned yet but happy to sell either of them separately.

Date of Birth of Cria at Foot: 13th July 2023

Current Age of Cria at Foot: 52 Weeks and 4 Days
