Description:

Hobnob, a delightful young male alpaca, is the first to greet visitors. His gentle nature and soft fleece make him a joy to be around. Currently undergoing halter training, he demonstrates great progress and enjoys the company of his field mate, Tawnymeade Bjorn.

Due to the absence of suitable companions for weaning, Hobnob is temporarily in our care at Tawnymeade Alpaca's. We have been granted permission to find a new home for this exceptional alpaca.
