## Description:

Willowbrook Opal is a beautiful daughter of Beck Brow The Instigator. She comes from one of our most successful and reliable family lines. This coloured line would not normally be offered for sale as we value the pedigree and quality so highly within our own breeding program! (Bloodlines - Beck Brow On The Money, Snowmass, EPC, Bozedown, Canchones, Accoyo Killawasi).

Opal is registered as black, but upon very recent inspection of her fleece, it appears it may be starting to grow through as dark brown. Her dam did the same and is registered as a Bay Black, but upon first shearing her fleece came back a uniform and consistent rich dark brown. It did not change again, and she kept the lovely black points!

Opal has a very correct, strong frame, with an exceptionally long, fine micron, exquisitely soft handling, and bright fleece. She has very good coverage and a lovely head type and sweet temperament (another common trait of this line).

Opal's grand dam is a Champion Brown daughter of Supreme Champion Valley Alpacas The Diplomat, who has not produced anything less than show worthy cria, proving her pre-potency in producing the goods time and again (too many to go through them all!). Opal's dam Double Trouble is full sister to WB Molly Mischief who scored an impressive 83 points with her junior brown fleece at the Heart of England in 2020 to become brown colour Champion. She beat off

some very tough, well known opponents, in what was a particularly competitive year for fleece shows owing to COVID! (see B.A.S. show results). She then went on to become Reserve Brown Champion of fleece with 82 points at the National Show in 2021, and was 1st in halter as an adult at the NSS in 2023, demonstrating she is maintaining these positive attributes.

Opal is a gorgeous young female, with proven coloured genetics on both sides of her pedigree, at an affordable price!
