Colour: Medium Fawn (Solid Colour)

Registered With: British Alpaca Society (BAS)

OURBASUK001

Blood Lineage: united kingdom

Date of Birth: 27th May 2022

Description:

Marley is our beautiful calm 2 year old, who was born here at Ourpacas. Marley is halter trained and is easy to walk on the halter. He also has a positive and friendly attitude towards people, and other alpaca's in the herd.

Marley's strong award winning genetics would make him perfect to breed. His dad, Houghton Master General has currently won 16 1st places, 6 reserved champions and 9 champion awards. Marley has taken after his dad's genetics for his fleece and bone structure. Marley's dam has Bozedown and Great House genetics. there are also a range of genetics with Peruvian and Australian within Marley's blood line.

Marley has a uniform dense ultrafine fleece. The fleece sample was tested at 15 months old, his staple length was 145.0 mm, and the micron is 16.7.

Marley has been:

- microchipped
- fleece fibre tested (art of fibre)
- fully vaccinated
- halter trained
- BAS registered

we are sadly selling him due to all our females being closely related to him and cutting down on our herd, but we believe he has great potential for the future.
