*(taken on 3rd June 2024 at 11 Months of age)*

**Fibre Testing Authority:** European Wool Testing Authority

### Description:

Lyra is a fabulous looking young black female with some great genetics behind her and a great future ahead of her.

She has a very well balanced conformationally correct frame and a striking look about her, she really stands out in the paddock.

She has a fine and dense fleece with great uniformity of colour and micron.

Lyra might just be the best black female that we have bred over the past 18 years.

She will be ready for mating in the Spring of 2025 and come with a free service to any of the males standing at stud here at Patou.
