

Description:

Comet is a five year old castrated Huacaya. He is halter trained and has been used for walking with the public and is very used to being handled and hand fed.

Comet produces a lovely dense fleece with a long staple length.

The reason for this reluctant sale is that we are no longer running trekking experiences on our farm, so we just do not need so many trained castrated males. Comet must go to an existing herd of at least two or more male alpacas.

Comet is BAS registered, microchipped and is up to date with all of his husbandry and vaccinations. Comet had his teeth rasped in June and October 2024.
