Description:

Maverick is a two year old intact male huacaya standing on a compact frame.

Maverick is fully grown but on the small side from his mother's genetics, so we are selling him as a non-breeding male.

Maverick has a lovely fine fleece and he would make a wonderful pet or fibre producer for someone who is looking to add to their herd. He will need to join an existing herd of male alpacas, to make a group of at least three.

He has done a little halter training but due to lack of time he isn't as well trained as most of our males. He has potential though, so with a little patience, could make a nice little walker!

Maverick is registered with the British Alpaca Society, is microchipped, up to date with his husbandry and vaccinations.
