Description:

Galen is a proven stud and has given us three lovely fawn cria over the last few years. He is now reluctantly offered for sale due to our decision to cease breeding.

Galen is a well grown huacaya alpaca standing on a well proportioned frame. Despite his size, Galen is as gentle as they come and is very easy to handle. He was our lead alpaca trekker for four years and has been an amazing asset to our herd, keeping a quiet calm amongst the other males who have all respected him.

Galen produces a lovely dense fleece with a long staple, and his first fleece was an incredibly low 17.5µ.

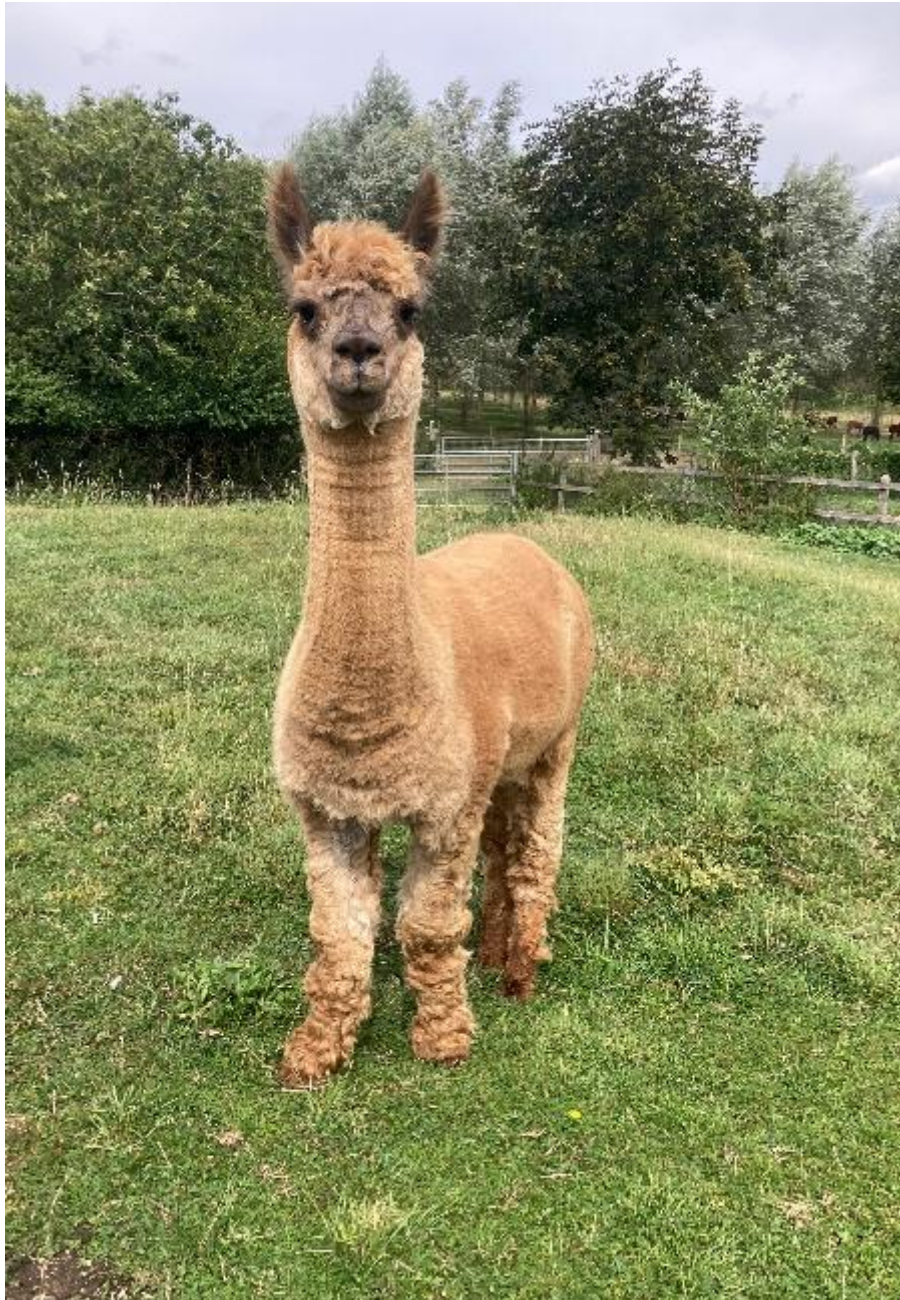

Galen is packaged with our castrated male Garnet and must go to a new home together as they have been with each other since birth. The two must go to an existing herd of male alpacas, with similar placid temperaments. Galen is BAS registered, microchipped and is up to date with all of his husbandry and vaccinations, and had his teeth rasped in June 2024.

Only 5* homes will be considered.
