Description:

Toft Tiana is a very rare pregnant female as she was one of the last daughters to be born from the famous Lavender Tully who is regarded as the best fawn male to enter the UK.

She is a well grown female who has amazing style and conformation. She is ideally covered in fleece and has a truly desirable phenotype.

Her fleece is very dense, medium fineness and long stapled as well as even in colour and very bright.

Mated to our Australian champion sire Surtierra Shadow, this female should reproduce the cria we have been so highly rewarded with from this cross of genetics.

This halter trained breeding female comes with all our normal guarantees including live cria, full veterinary health check and our long term advice and support.

Available for domestic purchase and also export to the EU, Norway, Switzerland, India and the Middle East.

Prizes Won:
