*(taken on 12th March 2024 at 4 Years and 7 Months of age)*

**Fibre Testing Authority:** Alpakotela Lab

### Description:

Inca Nausicaa is a very striking and good looking females. She has a robust frame and all aspects of her conformation are correct.

Her fleece is dense, uniform in colour and it is very bright which contributes to a softer handle than her fibre test reads. With her mating to our multiple national champion sire Toft Timogen, we expect the resulting cria to not only look the part but also carry a very dense and much finer fleece.

This halter trained breeding female comes with all our normal guarantees including live cria, full veterinary health check and our long term advice and support.

Available for domestic purchase and also export to the EU, Norway, Switzerland, India and the Middle East.

**Name of covering male:** Toft Timogen (Dark Brown)

**Last Mating Date:** 30th May 2024

**Estimated Date Cria Due (Pregnant Female):** 30th April 2025
