Description:

Eclipse was our first cria born on our farm and is now reluctantly being sold due to downsizing our herd. We are selling her as a non breeding female due to the white fibres that are now appearing through her fleece, which we felt wasn't a quality that we wanted to see through our own herd.

Eclipse isn't halter trained but is very easy to handle and is a very docile and laid-back member of the herd. She will need to be packaged together with some of our other females to form a herd of three, or go join an existing herd of females. She would make an excellent companion or be an attentive aunty to some cria.

Eclipse is registered with the British Alpaca Society, is microchipped and is up to date with her vaccinations and routine husbandry.

Only 5* homes will be considered.
