*(taken on 10th July 2023 at 3 Years and 2 Months of age)*

**Fibre Testing Authority:** Art of Fibre

### Description:

Mary is a striking, solid white, non-breeding female. Her Dam (Cold Comfort Blousy) and Sire (Cold Comfort Mason) have both won rosettes in their class. Notably, Her Sire has won many Rosettes including Reserve Champion across a range of shows. These fantastic genetics have clearly been passed onto Mary, who won 3rd in her class at the National and South of England Shows. Mary has a bright fleece with excellent coverage and a soft handle. Her first fleece came out at a desirable 15 micron and has remained low at 20.2 micron with an SD of 4.1 when her fibre was last analysed in 2023. With such excellent fleece traits, she would make an excellent addition to the herd of anyone who is looking to use her fibre to make products. She is conformationally correct and has a magnificent presence about her as she is very tall and broad with an excellent structure of bone. She is a very friendly, inquisitive and confident girl who (despite her large size) is easy to handle. She is a character and is not scared of coming up to us in the field for a good sniff. Mary is being sold as a non-breeding female as unfortunately, due to having a small vagina, a vet has determined that she cannot be bred from. That said, with her superb fleece traits, outstanding presence and friendly personality, Mary would make a fantastic addition to any herd. All our alpacas are halter trained from 6 months old.

Price £750 plus VAT
