(taken on 12th March 2024 at 10 Years and 8 Months of age)

Fibre Testing Authority: Alpakotela Lab

Description:

Toft Jargel is a very stylish female who is well covered in fleece and she has great balance and proportion to her frame. Her fleece is very bright, fine and super soft handling.

She had a solid true black male cria late in the season so wasn't remated but she does come with a free mating to our double National Champion sire Toft Timogen, which we will proceed with in May. Toft Jargel has great potential and is great value with many years of breeding left in her.

This halter trained breeding female comes with all our normal guarantees including live cria, full veterinary health check and our long term advice and support.

Available for domestic purchase and also export to the EU, Norway, Switzerland, India and the Middle East.

Name of covering male: Toft Timogen (Dark Brown)

Last Mating Date: 15th May 2025

Estimated Date Cria Due (Pregnant Female): 15th April 2026
