

Mullacott Halfpenny

Price: £500.00 (excl VAT)

Sire: Pentney Archie

Dam: Prince Park Florence

Type: Young Male (Intact)

Breed Type: Huacaya

Colour: White

Registered With: NONBAS5287

Date of Birth: 5th May 2024

Description:

Halfpenny is the biggest of the 2024 cria. He is easy to handle and is coming along very well with his head collar training, but I don't think he would work on a trekking farm. He is not quite solid white, having a fawn tail.

Mullacott Alpacas is a farm with high welfare and biosecurity standards. All alpacas are individually faecal tested about every six weeks and only then given appropriate treatment for any gut parasites if necessary. The whole herd is currently vaccinated with Bravoxin10, with six monthly boosters. A voluntary bTB test is carried out on every alpaca in the herd, annually. All deaths (over around 3 months of age) are subject of post mortem, to check for any undiagnosed health conditions.

We take bio-security very seriously, with all incoming alpacas thoroughly treated for any gut parasites, before moving onto the farm and then faecal tested on arrival and before leaving quarantine. Pre-movement tests are carried out for bTB and Johne's Disease (We have never had either disease diagnosed on the farm). All incoming alpacas are kept in quarantine for at least four weeks before joining the main herd.

We are willing to conduct any pre-movement tests/parasite treatments that you request.

Halfpenny 1
