

Mullacott Uma (NEU!)

Preis: €1,750.00 (excl VAT)

Vater: Inca Domino's Dream

Mutter: Amiryck Jojoba

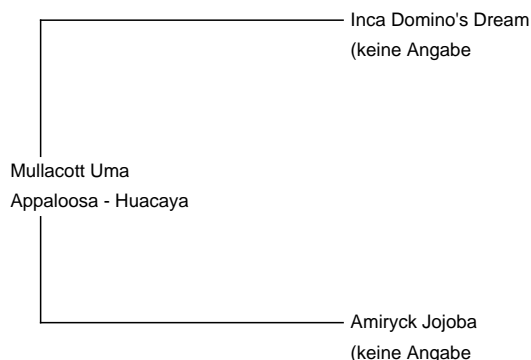

Typ: Stute

Rasse: Huacaya

Farbe: Appaloosa

Registriert mit: UKBAS45953

Geburtsdatum: 30/05/2024

Vlies: (1.)

19.60µ Standardabweichung 4.90µ COV (der Variationskoeffizient) 25.00% SF 19.80µ Wellenlauf 32.40 Grad/mm

(Entnommen an 22/07/2024 im alter von 2 Monate)

Faser-Untersuchungsorganisation: European Wool Testing Authority

Beschreibung:

Uma is elegant! She has a very calm nature and and easy to do husbandry with. She is coming along very well with his head collar training. She comes from good breeding lines. Her harlequin colour and very biddable nature comes from sire Domino and I expect her colour to darken to lovely modern grey as she ages. She is really calm to work with and has shown she is more than ready to complete our alpacagility course.

Mullacott Alpacas is a farm with high welfare and biosecurity standards. All alpacas are individually faecal tested about every six weeks and only then given appropriate treatment for any gut parasites if necessary. The whole herd is currently vaccinated with Bravoxin10, with six monthly boosters. A voluntary bTB test is carried out on every alpaca in the herd, annually. All deaths (over around 3 months of age) are subject of post mortem, to check for any undiagnosed health conditions.

We take bio-security very seriously, with all incoming alpacas thoroughly treated for any gut parasites, before moving onto the farm and then faecal tested on arrival and before leaving quarantine. Pre-movement tests are carried out for bTB and Johne's Disease (We have never had either disease diagnosed on the farm). All incoming alpacas are kept in quarantine for at least four weeks before joining the main herd.

We are willing to conduct any pre-movement tests/parasite treatments that you request.
