**Colour:** Medium Brown (Solid Colour)

**Blood Lineage:** Houghton; Inca

**Date of Birth:** 5th July 2024

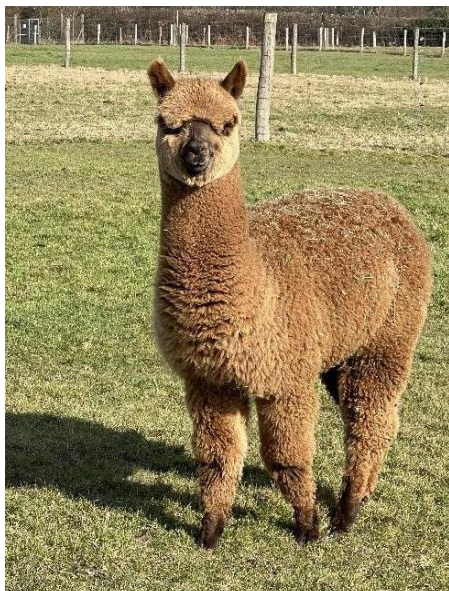

### Description:

Basil is the happiest little alpaca on our farm! He's always smiling and first to greet you in the morning. He would love to find a home with other males of his age. We have another weanling male (Frank) who is his friend and they would love to go together to an existing herd of young males, but we can also source other weanlings of varying colours as a little starter herd.

Basil is up to date with all husbandry and is starting his handling/halter training this week using camelidynamics techniques.
