Description:

This multicolour beauty is Kestle Harley Queen, born in June 2020.

Harley's fleece is very interesting and displays a very symmetric distribution of colours. Luckily, Harley's amazing bay black saddle produces a really nice yarn.

Harley's temperament is enviable and she is very docile easy to handle. The head type is strong and her frame is robust. My favourite trait is the flow of her walk, she is really stunning.

Harley comes from very reliable breeding lines, which brings not only good looks and fleece quality, but good health and behaviour.

Dam, Snowhill Diamond Girl.

Sire Snowhill Rufus.

Kestle Harley Queen
